Γ

Product Name:	11899		
Description:	6 Cavity Deep 1	Tray	

Registration of formed part in overall cut size may vary +/- 1 mm			
Length:	208 mm		
Width:	140 mm		
Diameter:			
Depth:	50 mm		

External (Cut Size) Dimensions

Raw Material Details

Туре:	PET	
Colour:	Clear	
Quality:	Food Grade	

This product is indented for use in direct food contact and as a result all sheet used in the manufacture of this product complies with current U.K. and E.E.C. regulations regarding materials in direct contact with food.

Packaging & Recycling Details

Internal Cavity Dimensions			
No of Cavities:	6	7	
Length:	55 mm		
Width:	55 mm		
Diameter:			
Depth:	50 mm		

Density:	1.350 g/cm2
Thickness:	300 Micron
Average tray weight:	11.794 grams

The product is formed by drawing the sheet material into cavities with maximum definition. As a result the gauge will vary considerably at different points depending on the depth and configuration of the product.
